“The Utilization of Support Broker Services”

Annette Downey
CEO
Community Living Services

“Getting great services” is obviously not
the goal of our field of work –

“GETTING A GREAT LIFE” is!

The type of supports people are asking for is changing. Thus, service providers need to adapt their service array and approaches to be more person-centered and person-directed accordingly.

This session aims to re-frame our views on service provision, with the goal of making our service systems as person-centered and community focused as possible. There will be a focus on the Who, What, Why, Where, and How Support Broker services and Independent Support Coordination services are helping people with developmental disabilities and mental health needs achieve active, rich, and respected lives as valued members of their community.
